Quarterly report

All

Q1

25-26

Activity this quarter:

26,898

Visits

19,638

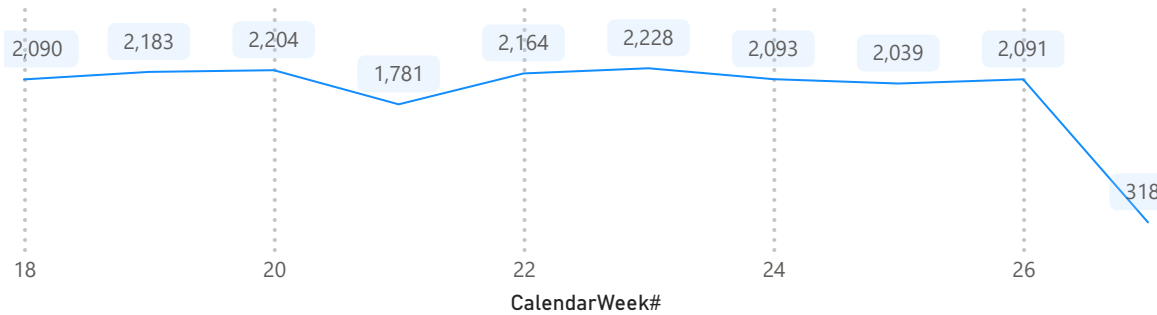

Users

7,110

Downloads

Month-Year	Visits	Users	Downloads
Apr-2025	8,882	6,552	2,381
May-2025	9,153	6,666	2,384
Jun-2025	8,863	6,420	2,345
Total	26,898	19,638	7,110

Website visits (weekly overview of the last 3 months)

**Note:** Website metrics reflect downloads of pathways and documents developed for the Calgary Zone under the Specialist Link program.

**Visits:** the number of sessions a user actively engaged with the website.

**Unique users:** unique visitors who initiated at least one session in the selected date range.

**Downloads:** the number of times documents were downloaded from the website.

**Available clinical pathways:** Total clinical pathways created and tailored specifically for the Calgary Zone, reflecting local care standards and available resources.

**Available access pathways:** the total number of Calgary Zone access pathways used to guide primary care providers in triaging patient needs (non-urgent, urgent or emergent) across various specialties.
